CommentsOnOfficialsPerf

Officials were given the incorrect start time, and therefore arrived about 5 minutes before the pregame warmup was supposed to start. Columbia was late arriving too, so in the end, it wasn't a big deal. Please schedule the correct start times going forward.

1st period was ok, 1 penalty was called.

2nd and 3rd had a total of 17 minor penalties called. Pretty bad job overall by both refs. Nappi blew a whistle too quickly that cost STAC a goal, when I (the Head Coach) asked, he said he lost sight of it. Quick whistles happen, but they cost a goal in a close game. Several of the penalties were weak/ticky tack calls, or just plain fictional calls for both teams. Too many whistles. Which leads to player frustration, and makes things much worse. Late in 2nd period, a Columbia Player threw a punch, and connected to the head of 1 of the STAC players. I will send video if we have it. It looked to me like everybody in the rink saw it, Both refs claimed they didn't. They gave the CU player 4 minutes for Unsportsmanlike Conduct. This makes no sense. They also simultaneously assessed 2 STAC players minor penalties. Manpower was set incorrectly by the refs, and 4 min was put on the clock for STAC. They started play, and we finished the period. Between periods I explained to them that they have this wrong, and it took a lot of cutting thru them defending their calls to get them to realize they were wrong. They finally did, and admitted the got it wrong, and changed the time on the clock to start the 3rd. We had 2 men in the box for concurrent minor penalties while they other team had 1 player with 4 minutes. (Double minor) they decided to put both of the STAC player in the box for 4 minutes, and play 4 on 4. Just plain wrong.

This shouldn't be my job. The On Ice Officials need to know what they are calling, and get the clock, manpower, and pen box set up correctly. Our Off Ice Officials were new, and were just doing what they were told. They should have been able to help, but this is the On Ice Officials job.

I wouldn't go as far as to say this crew wasn't competent, but once again, we need somebody to hold these individuals accountable for the mistakes they made. If they just move on and forget it ever happened, they will repeat these mistakes, and things just keep going down hill fast. A simple apology for messing up would be a nice start. Coaches make mistakes all the time, and I apologize when it happens.

CommentsOnOverallGamePlay

Both teams competed hard, and played to win. 18 minor penalties got in the way of what was heading in the direction of a very good, physical crisply played hockey game. Officiating slowed the game, made it hard to watch, and affected the flow of the game. Probably didn't affect the outcome, but it needs to get better. The officials must do a better job. They must be held accountable

CommentsOnOfficialsPerfAwayTeam

Icing is still a problem with officials in position to stop the teams line change. If a team attempts to change 4 to 5 times on a icing per game at some point there needs to be something done. The referee explained that they were unsure if it was going to be an icing, but I feel once the back officials hand goes up, one of the other 2 officials should go to the opposing teams bench to monitor who is trying to enter the ice. Its not a big issue but I see a lot of teams doing this and taking the gamble to sneak a player on.

CommentsOnOfficialsPerf

There were 18 total penalties. 11 on Stevens, 7 on Maritime. Tom Columbia called 16-17 of them. At the end of two periods the penalty count was Stevens 9 Maritime 3. At this point it felt like Mr. Columbia was doing everything he could to put us at a disadvantage. I'm not saying every call was wrong. I just feel like he is having or trying to have too much of an impact on the outcome of the game. Even in our game with Hofstra on 10/5, Mr. Columbia called 9 of the 10 penalties. The sequencing of the penalties in that game was Hofstra, 5 in row for Stevens then 4 in row for Hofstra. I can't remember a game that Mr. Columbia has refereed for Stevens dating back to the 2011-12 season that hasn't been a penalty circus. He butchered a Stevens vs Wagner game 2011-12 so badly I requested he not ref our games for the remainder of the season. He had a massive blow up with Hofstra coaches and players at the end of a Stevens at Hofstra game 2013 or 2014 that I'm sure you remember. At this point I am respectfully requesting the Tom Columbia not ref any games for Stevens at least for as long I'm Head Coach of Stevens.

CommentsOnOfficialsPerf

Competent and in control. Also, communicating clearly with players and coaches. Overall solid performance.

Body contact drew more penalties than stick contact (fouls);we (COLUMBIA) as a team would have liked to see more calls for slashing, crosschecking, etc.

Also, the Game Scorer Tony Abruzzo is adamant I report disrespect (chirping) by SUFFOLK players and coaches, along with being yelled at by Referee Simons for announcing the DQ to SUFFOLK player #98.

Temperatures were high nearing the end of the game, but the Scorer was doing his job properly, professionally, and I think was a little shocked to find himself treated in said manner.

CommentsOnOverallGamePlay

Game full of offensive opportunities for both teams. Marred by penalties as the game passed the halfway mark. Outstanding goaltending throughout. (Shots: COL. 31, SUFF. 28)

I have never been to a game were so many penalties have been called, but yet there were never any fights or scuffles. The refs just called the game and called the penalties as they happened, against both teams equally. Game never out of control, Parsons was especially communicate with the players, explaining things out to them. I thought they did a very good job together.

CommentsOnOverallGamePlay

All officials did a good job calling the game. When I questioned 2 calls where 2 of my players got hurt on separate plays during the game, in my opinion, there should have been a penalty and I was getting an explanation from the Referee's your linesman decided it was his time to flex his muscles and start intervening into the conversation and becoming very aggressive and arrogant. In which Referee Nolan at one point had to pull him away. Then he skates back at my assistant coach and yells what are you going to do. I really felt I was personally in a hockey game and he wanted to fight us, not sure that's what we want officiating our games. I was told by Referee Santini "he's just a kid". Also he was very friendly with the most of the Fordham players. I know this will get turned around and spun another way but Andrew Mola was there you can ask him as well. The game was called well, and I understand the referees will not see everything I was just giving my opinion of why it should have been called and both referees were engaged in my discussion. And by no means was the game affected by the officiating.

Not a great performance, but professional and good communication with our bench from all 3 officials. Confusion on a delayed offside lead to a goal, and then a subsequent meeting, where they waived it off. Several other Offsides and Icings that were either delayed in the call, or missed completely. 2 or 3 penalties that were not necessary to call, which slows the flow of the game. 2nd period specifically was poor				N/A				
CommentsOnOverallGamePlay				CommentsOnOverallGamePlayAwayTeam				
Stevens and STAC are pretty even in physical talent. Stevens is deeper in total numbers, and when penalties put 2-3 STAC players in the box, the short bench gets even shorter, and it becomes an uphill climb, too steep on this night. Stevens deserved the W				N/A

CommentsOnOfficialsPerf

Overall professional demeanor and performance. The outcome of the game was decided by the players, not the officials. Santini while professional is not competent. He blew several icing calls, one that lead directly to a goal, and it seems his age prevents him from keeping up with the play from a skating standpoint, and a mental standpoint, it is all too fast for him, and it impacts the game. Barnard had a good game for 59 minutes and 55 seconds, but he called a goal on a puck that didn't go in, which was a critical momentum moment in the 3rd period.

CommentsOnOverallGamePlay

Both teams competed hard, and played physical. 3rd period got chippy, and heated. These 2 teams play again Friday night, so hopefully that doesn't carry over into the 1st period of Game 2.
